

# QIC Asset Management Money Market Program

FACTSHEET February 2026

## Portfolio Investment Strategy

The QIC Asset Management Money Market Program ("QICMM") is a money market solution, offering clients attractive proposition for short-term liquidity management. The objective of the program is to optimize short-term returns for investors by investing in term deposits, predominantly with banks in Qatar rated "A-" or above. The principal settlement period is T+2 days & profit payout is monthly.

## Market Comments

The Federal Reserve's benchmark federal funds rate is at 3.50 % – 3.75 %, unchanged at the start of March 2026 after a pause following several cuts in late 2025. Fed officials are cautious about further cuts because inflation remains above target, though some policymakers see cuts later in 2026 if inflation continues to ease. Overall GDP growth for 2025 was around ~2.2 %, down from ~2.8 % in 2024 and Annual headline CPI inflation was reported at ~2.4 % (Jan 2026) — showing continued cooling but still above the Fed's 2 % target. With GDP slowing and inflation still above target, the Fed is in a "data-dependent" mode: not ready to cut aggressively but keeping rates accommodative relative to earlier high levels. The profit rates is expected to move down gradually in line with the FED rate cuts.

## Key Information

**Inception Date:** 30<sup>th</sup> July 2025

**Investment Managers:** QICAM

**AUM:** 69 Mn

Net Annualized Monthly Distribution Rate	3.87% p.a.
Expense Ratio	0.002%
Asset Under Management (AUM)	69 Mn
Currency	QAR
Investment Manager	QICAM LLC
